SOFTWARE ENGINEER

As a software engineer, i don't just only write code but craft experiences, optimize performance, and ensure the highest quality in every project. My capacity to work collaboratively, communicate complex ideas clearly, and innovate within teams makes me a vital contributor to driving success, streamlining processes, and transforming ideas into reality. I am a visionary problem-solver, combining analytical thinking with creativity to build solutions that impact countless lives.

KEY COMPETENCIES

Process improvement	Report writing and presenting	Strong interpersonal skills
Strategic Planner and innovate	Critical thinking skills	Proactive and self-motivated
Efficient and hard worker	Excellent communication skills	Exceptional organisational skills

PROFESSIONAL EXPERIENCE

Expandly

Oct 2023 - Present

Full Stack Web developer

Developed and implemented web services to local businesses, so i built a small tech start-up which provides mobile and web services to local businesses. I am responsible for the development, testing, maintenance and implementation of those systems built.

Urize
